

SITWORKS AND METERING SERVICES

GET CONNECTED. STAY CONNECTED.

WHAT IS SITWORKS?

Managing the infrastructure that supplies your site with electricity, gas and water is no small feat. That's why we at Advantage are proud to bring you **Siteworks** — your stress-free, competitive, complete utility infrastructure installation solution. From upgrading gas meters to redirecting power cables, on a single site or a huge estate, Siteworks has you covered.

WHO IS SITWORKS FOR?

If you're a UK based company then Siteworks is for you. We cater to all organisations across the commercial and public sector, from SMEs to I&Cs and domestic portfolio properties. Whether you've got a single site, a large complex of buildings or you are a managing agent with a portfolio of properties, Siteworks can take care of all your utility infrastructure needs.

WHAT'S INCLUDED

- Highly competitive quotes from suppliers across the country.
- A comprehensive end to end service, with a dedicated project manager and a single point of contact to deliver all work.
- A UK-based customer service team there to help you with any queries.
- Fast turn around - standard meter installations between 5-10 days.
- All meter types covered, including low and medium pressure commercial meters.
- Supply and connection can also be co-ordinated in addition to Siteworks.
