

CARBON REPORTING AND MONITORING

CARBON REPORTING SOLUTIONS

If you are a business wanting to start on your pathway to Net Zero, Advantage Utilities will help you decide on the most suitable solution to help measure and report on your carbon footprint and highlight where you need to make improvements on your journey towards Net Zero. We offer a one-stop solution, covering your business's journey from beginning to end according to your needs. We can implement the appropriate solutions required to meet your goals and certify your business accordingly.

FUTURE NET ZERO™ STANDARD SOLUTION

Simple, secure and cost-effective way to measure your carbon footprint.

Simple, secure and cost-effective, the Future Net Zero Standard™ (FNZ) is powered by the CBN Expert dashboard. The dashboard allows your business to input data to monitor and calculate your carbon expenditure.

You can take advantage of the Essential or Professional version of the FNZ Software to record your data, measure, set targets, track & report the carbon emissions in your business.

WHAT WILL THE FNZ STANDARD ACHIEVE?

Annually verified by Future Net Zero Standard™, your business will be benchmarked at the start, with the aim of working towards the different FNZ Standard accreditations (Bronze, Silver, Gold and Platinum) to certify your annual improvements in carbon reduction.

- **FUTURE NET ZERO™ – ESSENTIAL**

CBN Expert Essential includes all you need to take control of your carbon emissions to start your journey towards Net Zero. Measuring energy expenditure, business travel and direct carbon.

- ✓ Scope 1 & 2 Reporting
- ✓ Set & Track Benchmark
- ✓ Multi-site Reporting
- ✓ Easy (Manual) Data Entry
- ✓ Stakeholder Reporting

- **FUTURE NET ZERO™ – PROFESSIONAL**

FNZ Professional will take you to the next step of your Net Zero journey. Aimed at businesses who are ready to start measuring their Scope 3 emissions and collaborate with their supply chains.

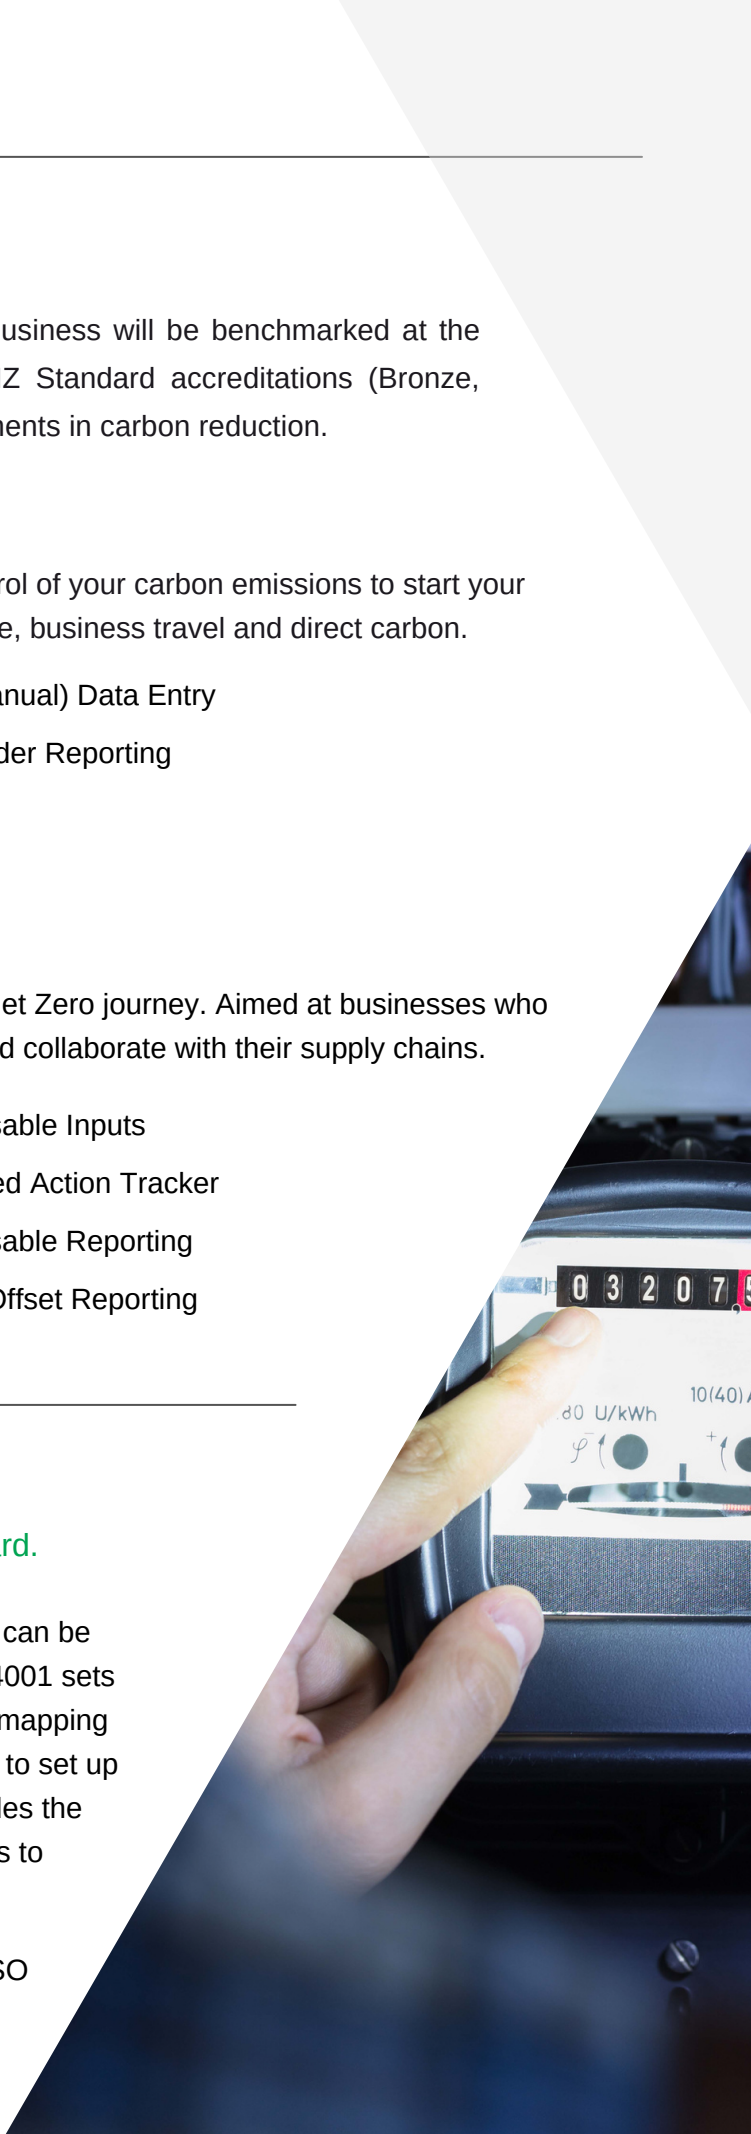

- ✓ All Features of FNZ Essential
- ✓ Automated Data Entry
- ✓ Scope 3 Reporting
- ✓ International Reporting
- ✓ Customisable Inputs
- ✓ Embedded Action Tracker
- ✓ Customisable Reporting
- ✓ Carbon Offset Reporting

BESPOKE CARBON REPORTING

We can help towards achieving the ISO 14001 standard.

ISO 14001 is an internationally recognised standard which can be applied to a business of any size, within any sector. ISO 14001 sets out the criteria for an environmental management system, mapping out a framework that a company or organisation can follow to set up an effective environmental management system and includes the development of business policy and operational procedures to achieve your goal.

If your business is aiming to meet and be certified by the ISO 14001 standard, we offer a range of bespoke ISO 14001 consultancy to help your business achieve this.

MAKE A PLEDGE

Join the UNFCCC Race to Net Zero Campaign.

Recognising the importance of making a full commitment, Advantage Utilities is working with FNZ and CBN Expert to enable businesses to make a pledge and commit towards achieving net-zero as defined by the United Nations Framework Convention on Climate Change (UNFCCC) Race To Zero campaign. Your Pledge is optional and can be publicised to promote your commitment.

HOW CAN WE HELP?

Our consultants can advise on and help implement your carbon reduction strategy.

- Advise on the appropriate reporting option for your business size and goals.
- Assist your business with setting targets that can be measured and shared.
- Audit your business energy, identify and implement technology and solutions that will help you to reduce your carbon emissions; such as LED Lighting, Solar, CHP.
- Record the data for you monthly to deliver your carbon reports - for one, or multiple sites.
- Help comply with relevant legislation such as ESOS and SECR - if applicable to your business size.
 - Offset any remaining carbon, if necessary.

From start to finish, our team of expert consultants will help define your roadmap to becoming a carbon neutral business, implement the necessary measures to get you there and certify you accordingly.

Benchmark your business now.

Take the first step on your carbon journey by speaking to our consultants for advice.
